Cleanable Vinyl Ribbon Pull for Lights and Nurse Calls

**SANIPULL®**

a better way

Dear Healthcare Administrator, Infection Control Professional and Maintenance Manager,

**Sanipull** is a cleanable ribbon pull for your facility's over-bed lights and washroom nurse calls. **Sanipull** products enhance infection prevention measures on light fixtures and nurse calls by replacing traditional pulls, including plastic bead chain, metal ball chain, braided nylon cord, string or cling, all of which cannot be properly disinfected. Implementing **Sanipull** throughout your facility, in conjunction with proper cleaning practices, will help in your fight against nosocomial infection, which places patients, residents, visitors and staff at risk.

Your maintenance department will appreciate the Sanipull **Switch Saver** light pull with its unique over-force release feature. Replacing fewer broken light switches reduces maintenance costs and hassle! Also, **Sanipull** ribbons are the only cleanable pulls that can be modified for anti-ligature protection. The ready-to-install Sanipull takes less than a minute to attach to a fixture. **Sanipull** was part of a successful infection control strategy<sup>1</sup> implemented at Toronto East General Hospital that significantly reduced their nosocomial infection rates.

Cleanable **Sanipulls** have many other benefits and features for healthcare facilities. **Sanipulls** are available in standard lengths but can be fabricated to custom lengths and clip options. We can provide a durable, economical and cleanable **Sanipull** that will meet your facility's light and nurse call pull needs. Consider ordering our evaluation 50-pull (you choose the assortment) Sanipull starter pack with a 30-day money back guarantee. Sanipull is now installed in over 300 facilities worldwide.

Request us our 2007 product code and pricing matrix for our selection of high quality standard lengths of 100% vinyl Sanipull ribbon pulls, available in blue, green or red.

If you have any questions, you can contact us directly.
