

SLIDE STAINING

SLIDE STAINING

M900 EasyDip™ SLIDE STAINING SYSTEM

Made of acetal polymer

Finally a user-friendly approach for staining your microscope slides, the **EasyDip™ Slide Staining System** has two components: a square staining jar and a 12-position vertical slide rack. Jars can be loosely joined to each other laterally, therefore making sure they are kept in the same order when moved around on the lab counter. As an extra benefit, they are available in 5 different colors to help better identifying contents or applications.

The staining jar being made of resistant acetal plastic will not break like most glass jars do. It will resist most staining agents including alcohol and xylene (but not phenol). The wide stable base offers greater stability while the inside is recessed, allowing for a smaller reagent volume of only 80 ml. Easy to clean and no metals to corrode. Ideal for special stains, frozen sections and special processes. Will resist temperatures between -170 °C and +121 °C. Autoclavable.

Dimensions: 64 x 76 x 92 mm H. (2 1/2 x 3 x 3 5/8 in. H.)

Patent Pending.

EasyDip™ Slide Staining Jar

Cat.#	Color	Qty/Cs
M900-12B	Blue	6
M900-12G	Green	6
M900-12P	Pink	6
M900-12W	White	6
M900-12Y	Yellow	6
M900-12AS	Assorted*	1 kit

* Each kit includes 5 jars (one of each color) and 1 rack (M905-12DGY).

Slide Staining Rack
sold separately

NEW

The **EasyDip™ Slide Staining Rack** will hold up to 12 microscope slides with dimensions such as 75 x 25 mm, 3 x 1 in. and even 76 x 26 mm and with a thickness of 1.0 and 1.2 mm. The slides fit into individual slots for free passage and rapid drainage of staining fluids. Since they are placed vertically in the rack and not horizontally, their writing area will not be stained by the fluid, allowing their removal without the use of forceps. The lid completely covers the **EasyDip™ Slide Staining Jar** to minimize spill and evaporation. A handle is permanently attached to the rack for easy insertion and removal of slides without your fingers touching the solution. The base of the rack is placed in the vertical position to secure the slides in place, and is rotated sideways for allowing their easy removal. Available in dark gray only. Will resist temperatures between -170 °C and +121 °C. Autoclavable. Patent Pending.

Dimensions: 60 x 64 x 97 mm H. (2 1/4 x 2 1/2 x 3 3/4 in. H.)

EasyDip™ Slide Staining Rack

Cat.#	Color	Qty/Cs
M905-12DGY	Dark Gray	6

M905-12DGY

Jars can be loosely joined to each other laterally.

A handle is permanently attached to the rack for easy insertion and removal.

Staining rack is placed at an angle to facilitate draining of slides.

Vertical rack eases slide removal without using forceps.

Slides are fully secured when lid is upright. Rotate it sideways to allow their easy removal.

The **EasyDip™ Slide Staining System** makes it easy to change and replace staining jars as needed without having to dismantle each individual unit.
