

Histoplex™

h i s t o l o g y c o n t a i n e r s

These polypropylene containers are carefully engineered for the storage of histology specimens. The patented "O-Ring" polyethylene screw cap forms a seal that reduces most formalin leakage and evaporation. The durable polypropylene container (5ml-1 liter) is translucent, flexible, resists cracking and splitting, and eliminates the problems associated with formalin evaporation. Histoplex™ containers are available in a range of sizes. The 40ml-1 liter sizes have graduations for easy fill line viewing. The 2-8 liter containers are white polypropylene with unique tamper evident snap-on lids.

Histoplex™ features and benefits

TM

250ml, 500ml & 1 liter containers		
Features	Description	Benefits
Ribbed Cap	Easy to handle, even with wet gloves.	Easy to Use
Ridge on Top of Cap	Stackable.	Saves Space Convenient
Graduated Container	Easy to dispense desired amount of formalin.	Saves Time
Semi-Clear	Allows viewing to check that the formalin covers the tissue.	Flexible Convenient
Nested in Shipping Cases in Plastic Sleeves	Saves storage space. Easy for stores or laboratories to dispense.	Saves Space Saves Time

40, 60, 90 & 120ml containers		
Features	Description	Benefits
Molded "O-ring" Cap (screw-on) (patented design)	Top of vial fits into the groove in the cap so there is more contact (better seal) between the vial and cap.	Better Leak Resistance Versatile
Polypropylene Vial	Does not breathe. Reduces formalin fumes in work and storage areas.	Safe Comfortable Work Area
Reinforced Top and Bottom	Difficult to squeeze in and therefore does not leak.	Safe
Full Circle Thread	Cap does not cross-thread. A better seal.	Safe Easy to Use
Graduated Container	Convenient markings for measuring.	Easy to Use
Straight-Sided	More stable than slope-side containers. Stackable design.	No Leaks Saves Space

2 liter, 5 liter & 8 liter		
Features	Description	Benefits
Unique Snap-On Cap	Maintains a secure seal. Features a tear-off tamper evident tab.	No Leaks
Polyethylene	Does not breathe. Reduces formalin fumes in the lab and storage areas. Formalin does not need to be topped up during longterm storage.	Convenient Saves Time Saves Money
Sturdy Construction	Stackable design.	Ideal for storage
Sturdy Handle	Plastic. Can be removed if desired.	Convenient
Nested in Shipping Cases	Compact packaging takes up less space in storage areas.	Saves Space

vision statement

Starplex Scientific Inc. is dedicated to the development of innovative, premium quality plastic disposables; providing reliable specimen transportation for many facets of the health care industry. Focused on and responsive to the needs of the customer, Starplex strives to anticipate the evolving market requirements and work co-operatively with customers to implement unique, effective solutions.

record of reliability

Our origins date back to the 70's, and since then we have become a prominent supplier to the medical industry. Our sales and distribution coverage includes every state and province of North America, supported by a state-of-the-art manufacturing plant in Canada. We are privileged to supply literally thousands of hospitals, laboratories and health care facilities with Starplex products.
